

Designed for Ease of Access

Featuring specially developed angles and a silicone coating.

Ease of Access

Up to 57% lower initial force than the leading competitor*

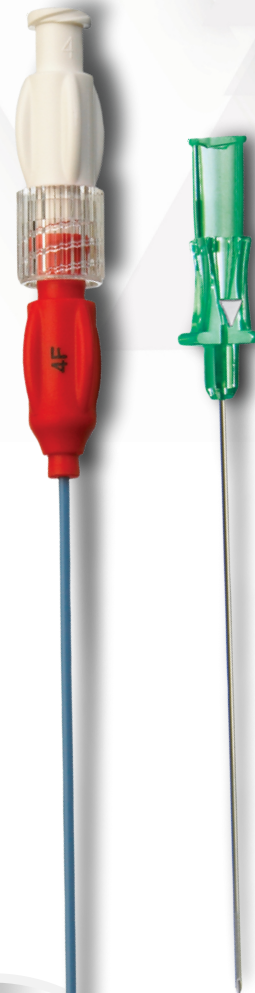

Fluent transition from cannula, to dilator, to guidewire for lower penetration forces, improved insertion, and reduced trauma at the insertion site

Fluent kits available with:

- 4F and 5F sizes with color-coded hubs
- Regular and stiff cannula configurations
- 21G X-Sharp® echogenic needle with bevel indicator
- Variety of guidewire options including high-radiopacity tips
- All-inclusive packaging
